Expert talk on

First step in Enterprise World

To create awareness amongst students about the latest trends and technologies and its usefulness, Department of Computer Engineering organized an expert talk ,” First step in Enterprise World ” on 12th March 2019. Mr. Sandeep Khuperkar, the CTO, Director at Ashnik was the guest of honour. The talk aimed to provide knowledge and information to students regarding upcoming and trending technologies, it importance and applications. The speaker, Mr. Sandeep Khuperkar, was informative about how the technological advancements play a vital role in overall development. He motivated students to stay updated with recent advancements and to look forward for careers in various developing open source technologies. Mr. Khuperkar, with narration of few market trending examples highlighted how students can successfully build and opt of job opportunities in open source platforms.

The session was overall informative and motivational for 26 students of computer engineering department. Proceeding towards the end, Mr. Khuperkar conducted an interactive activity which involved participation of students in groups, to share their knowledge and ideas about the latest technical developments known to them.
