“Motivational Seminar”**

A student development program “Motivational Seminar” was conducted on 19th September 2016. The speaker of this program was Dr. S Neelkanthan. It is the most effective options to help students to come up with creative solutions. Giving open-ended questions enable students to think out of the box and make an attempt to test and challenge their creative thinking.

The seminar focused on making the students build positive self- esteem and discover their true potential. It helped boost students self confidence and modify their attitude towards the changing things around them. During the session few group activity which helped them understand.

During the seminar few motivational videos were also played. Overall the session inculcated a positive attitude towards challenges in life which actually motivated the students for their betterment.
