Aim of ICACE 2019:

The aim of ICACE is to bring together academicians, industry personnel and researchers working in the field of Civil Engineering. This conference is a great opportunity for all Civil Engineers to share ideas, innovations, challenges and shed light on the recent advances in this vast field.

Themes:

Areas of interest included (but are not confined to):

- Smart City and Town Planning
- Advanced surveying and geospatial techniques
- Structural analysis and engineering
- Geotechnical Engineering
- Construction Management
- Remote Sensing and GIS
- Transportation Engineering
- Advanced Concrete Technology
- Water and Environmental Engineering
- Sustainability & Green Structures

The ICACE conference was conducted under the aegis of ICASTe-19. A.P. Shah Institute of Technology, Thane (Mumbai , Maharsashtra) with pride presented International Conference on” Advances in Science, Technology and Engineering” (ICASTe-2019), The Prism of Conferences in the college campus on 4th & 5th January 2019. The broader objective of ICASTe-2019 was to provide a forum for students, faculty, industry and researchers to share their ideas, stimulate creativity, facilitate inter-disciplinary development, motivate and inspire emerging talents. The purpose of the conference was to bring together researchers from around the world who were interested in exploring new trends in the field of technology.
